

Managed services enable technology to work for you, not against you.

With **Hogan Managed Services**, it's easier than ever for your business to get the benefits of enterprise applications, security, backup, and monitoring – without the complexity or cost.

And because your services are proactively monitored by an **[industry awarded]** partner, your limited or overworked IT staff can trust that you're always compliant, secured, and backed up

Increase User Productivity

Empower your team and simplify IT management with a single solution, purpose-built for your business.

IT System monitoring & Tech Support

Benefit from a proactive 24x7 approach to monitoring, updating, and supporting your IT infrastructure.

Protect Your Evolving Business

Safeguard against unexpected interruptions, data loss, or attacks with built-in automatic recovery and threat protections.

Our **pay-as-you-grow** monthly per-user subscription model lowers your up-front cloud migration costs and offers you the flexibility to scale up or down as needs change.

Optimize Your Users To Drive Efficiency In Your Business.

User Productivity

Reinvent teamwork

Do more with the Microsoft tools you already know: Real-time document sharing, project collaboration plus secure instant messages, video calls, and online meetings.

*Only available for PC devices.

Microsoft Apps / Services

Outlook, Word, Excel, PowerPoint, OneNote, Access*, Publisher*

SharePoint, Exchange, 1TB OneDrive for Business, Skype for Business, Teams, Yammer.

Always Up & Running

Proactive Monitoring and Maintenance

Continuous performance monitoring and automated self-healing of your servers, applications, and cloud services.

Unlimited 24x7 Support

Unlimited 24x7 technical support to help mitigate risk and protect your environment. Receive monthly reports and quarterly reviews of your managed environment.

Alert Response

Leverage smart, connected technologies which report and autocorrect system errors triggered by our proactive monitor tools.

Security & Backup

Safeguard against modern threats

Reduce risk and exposure using our advanced blend of threat protection, detection, and removal to ensure your users are always protected.

SharePoint & OneDrive Backup

Rest assured, we also include a cloud backup solution which takes multiple daily snapshots to ensure users go about without fear of disruption of data.

Cloud File Sharing & Backup

Retain all the data from your business applications with 1 TB of OneDrive for Business personal cloud storage. Access data from anywhere and sync with PC/Mac for offline access.

PRICING

\$ 50
per month

GET STARTED

Keep your IT system positioned to respond to your business needs. We help you manage your technology investment, not just react to it.

How we can help
