

# Optimize your users to transform your business.

Drive efficiency with flexible technology.

With **Hogan Managed Services**, it's easier than ever for your business to get the benefits of enterprise applications, security, backup, and monitoring – without the complexity or cost.

We protect your business data from unexpected disruptions, whether due to cybersecurity, lost devices or natural disasters. Our **pay-as-you-grow** monthly per-user subscription model lowers your up-front cloud migration costs and offers you the flexibility to scale up or down as needs change.

And because your services are proactively monitored by an [\[industry awarded\]](#) partner, companies with limited or no IT staff can trust that you're always compliant, secured, and backed up.

## Leverage flexible cloud apps

Empower your team and simplify IT management with a single solution, purpose-built for your business.

## System monitoring & Tech Support

Benefit from a proactive 24x7 approach to monitoring, updating, and supporting your IT infrastructure.

## Protect your evolving business

Safeguard against unexpected interruptions, data loss, or attacks with built-in automatic recovery and threat protections.

Elevate your business with intelligent technology.

# Hogan Managed Services help drive efficiency in your business.

## User Productivity

### **Reinvent teamwork**

Do more with the tools you already know. Real-time document sharing and project collaboration. Quickly connect via instant message, video calls, and online meetings.

### **Anywhere it matters**

Access your work securely from anywhere. No wifi, no problem. Work offline and sync later. Available on Windows, iOS, Android, Mac, and through web browsers.

### **File storage and sharing**

Retain all the data from your business applications with 1 TB of OneDrive for Business personal cloud storage. Access data from anywhere and sync with PC/Mac for offline access.

## Always Up To Date

### **Proactive Monitoring and Maintenance**

Continuous performance monitoring and automated self-healing of your servers, applications, and cloud services.

### **Unlimited Tech Support**

Unlimited 24x7 technical support to help mitigate risk and protect your environment. Receive monthly reports and quarterly reviews of your managed environment.

### **Alert Response**

Leverage smart, connected technologies which report and autocorrect system errors triggered by our proactive monitor tools.

## Security & Backup

### **Safeguard against modern threats**

Reduce risk and exposure using our advanced blend of threat protection, detection, and removal to ensure your users are always protected.

### **SharePoint & OneDrive Backup**

Rest assured, we also include a cloud backup solution which takes snapshots every 4 hours to ensure users go about without fear of disruption of data.

### **Exchange to Office Migrations**

From your basic email, calendar and contacts data to email signature blocks, and email rules, we can help with a smooth, low-risk transition to cloud.

*Keep your IT system positioned to respond to your business needs. We help you manage your technology investment, not just react to it. We provide your organization with unlimited support for the full solution that is implemented by our Certified System Integrators.*

### **How we can help**

With our cloud services, your organization can lower overall costs and deliver the right set of tools for the right users, all with appropriate layers of security and compliance.

With Hogan Managed Services, it's easier than ever for your business to get the benefits of enterprise applications, security, backup, and monitoring – without the complexity or cost
